## The Catalyst Map

- **VISION:** Expand into the vision beyond the vision, the vision of the vision, the goals, the targets, the plans and actions.
- **INTEGRITY:** What are your key themes, focus areas, aims for impact how do we align our being and interbeing with our highest expression and impact? What are our values and embedded ideals? What is our path of personal and purpose mastery?
- **VOICE:** Amplifying your influence through intentional design by anchoring in your voice, your promise and narrative as a leader and the voice, promise and narrative of your company, movement or mission - for the ways of impact you promise.
- **AUTHENTIC** - What barriers, challenges and other curve balls are up for exploration as you chart your way forward expanding in your unique brilliance, staying true to you and your mission with your theory of transformation and change.
- **ALIGNMENT-** We circle back to your Impact Magicfesto and close gaps, re align, track, measure, and celebrate what was, what is and what highest potentials are becoming as a result of your Deeper Impact Journey

## Who are you NOW and what are you NOW 'positioned' to do?

As creator, as receiver, as co-creator, as infinite, multi-dimensional, vital and radiant human in a body on our gorgeous mother earth at this time, you are more than enough as you are and as you be. Creation did not get you wrong. Ok now that we've ticked that off and voyaged through the EVOLVE Pillars, you have a toolbox to apply to your evolutionary work and deeper impact in business, leadership and life.

We'll be using your **DEEPER IMPACT MAGICFESTO** to create your personal dashboard of vision, goals, plans, values, possibilities, strategies, personal well being reminders, learning curiosities, and story magic-festing so that you can continue with this as a living Magicfestos updating as you grow, evolve, impact and change. Having this dashboard be the place you drop your dreams, your visions, your aspirations and alignments, consider it a **magic manifesting, creation, story keeper portal** holding all of your future potential!

Storytelling is one of the most powerful ways to plant seeds of transformation in others until they are ready to sprout and jump on board with your vision. Your narrative, your mission or movement, your company's or organizations' narrative, inspires and aligns people and spreads those seeds of possibility for your big vision beyond the vision to evolve into being now and beyond.

We are reaching toward our highest potential from higher purpose as quantum creators experiencing our most radiant and vitally fulfilling lives of contribution, while creating a most beautiful future as ancestors.

Enjoy this journey and remember, all the tools in your bag for reaching toward the highest.

What we track grows. What we track moves forward. **We can track into the future.** What in-formation do we need from the future, our future selves, to help design our impact and goals now to reach our highest potential? Use the resources in your **Learning Tab** in the Magicfestos to explore and expand.

What does the future look like in a world with living systems, nature-based companies, unitive consciousness and humans thriving in harmony with themselves and nature? What does a future look like with you well, whole and fully actualizing your greatest potential from a place of higher purpose?

# Deeper Impact Magicfest

As we lovingly craft your **DEEPER IMPACT MAGICFESTO** we infuse aspiration and continue to remember the 'inner work' needed to be in alignment with our outer impact for coherence with our future potential.

In this journey we will be using the word 'Tracker' for two things; Tracking through documentation and tracking through a felt sense of knowing seeking the answer to a question- or seeking the question itself. Your tracking powers will be needed to track into the far future, near future and close future to align you with your path of higher purpose.

**Oxford Dictionary on Tracking:** *the maintenance of a constant difference in frequency between two or more connected circuits or components / the alignment of the wheels of a vehicle.*

*I* Infinite  
*M* Magic  
*P* Purpose  
*A* Aspiration  
*C* Choosing  
*T* Timelines

## Step One: Vision

This visioning module invites you to journey through the two visualizations in the client portal where you are guided to future track visions from 100, 50 and 10 years out. You then have another guided visualization to hold space for your 5, 3 and 1 year visions.

Add your visions to your **DEEPER IMPACT MAGICFESTO** in the **IMPACT VISION MAP** tab in the left column. All the detail you remember.

**Why stretch 100 years?** Deeper impact is about actualizing your highest potential and our highest potential as a collective. If we're only solving problems from where we already are we're not tapped into possibility, solutions and perceptions that will get us beyond the broken program. First we must feel the energy of potential so we may become coherent with that energy.

Let's **stretch beyond** and activate your muscles to vision what a world in harmony with ourselves, each other, nature and the cosmos can be like, one that shows we've mastered the pillars of evolution, one that helps align **your purpose, energy and impact**. One that is life giving and in coherence with evolutionary principles in harmony with the cosmos and our potentials to access our true multidimensionality.

Your vision can **include** your family, future generations, people, community, themes you care about, what you're passionate about, universal issues in our world, or how happy and fulfilled you are. There is no right or wrong way to do this.

Remember to be mindful of 'where' you're visioning from, which lens?

Bring in your powers of **perception** that were mastered around the **Medicine Wheel Journey**, South (literal), West (emotional), North (mythical soul), East (spirit, oneness, consciousness).

'somewhere' – you're intentionally tapped in to the Field of in-formation and you are spontaneously guided.

Your role as a **Quantum Creator** is to create the container, to mulch the soil, and to prepare for intel to come through. As the gardener for this cosmic garden, you prepare the beds, you plant your vision, you tend your goals, you water your plans and you let go and receive quantum outcomes. You trust yourself and you trust in the vision beyond the vision, the plan beyond the plan – and your role is to stay in flow.
